

Joyful Generosity

Raising A Generous Kid

Model Giving Generously: children are sponges. They will watch and copy what you do. If you model giving out of a joyful spirit, they will do the same. Sponsor a child together as a family.

Talk About It: make it a priority to point out when others are being generous and then explain how God is generous with us, and we should be generous as well. Remind your kids that God is the owner of everything. Every good thing we have comes from God.

Encourage It: be on the lookout for opportunities to help your kids practice being generous and doing things for others.
